

# Discover Your Dream Career & Lifestyle in Thunder Bay

At Thunder Bay Regional Health Sciences Centre, we are a dynamic team of men and women dedicated to providing both excellent Emergency Care and Teaching while maintaining an exciting lifestyle.

The expansive untouched wilderness surrounding the city of Thunder Bay invites adventure and exploration. It offers a spectrum of outdoor activity found minutes from our doorstep including rock and ice climbing, skiing (classic, skate, touring and downhill), canoeing, white-water and sea kayaking, wind surfing, sailing, hiking, camping, fishing, hunting, mountain biking and extensive running trails.

It is truly a Mecca for  
the outdoor enthusiast!

We are looking for Emergency  
Medicine trained physicians with great  
career aspirations and rich lifestyle  
expectations.

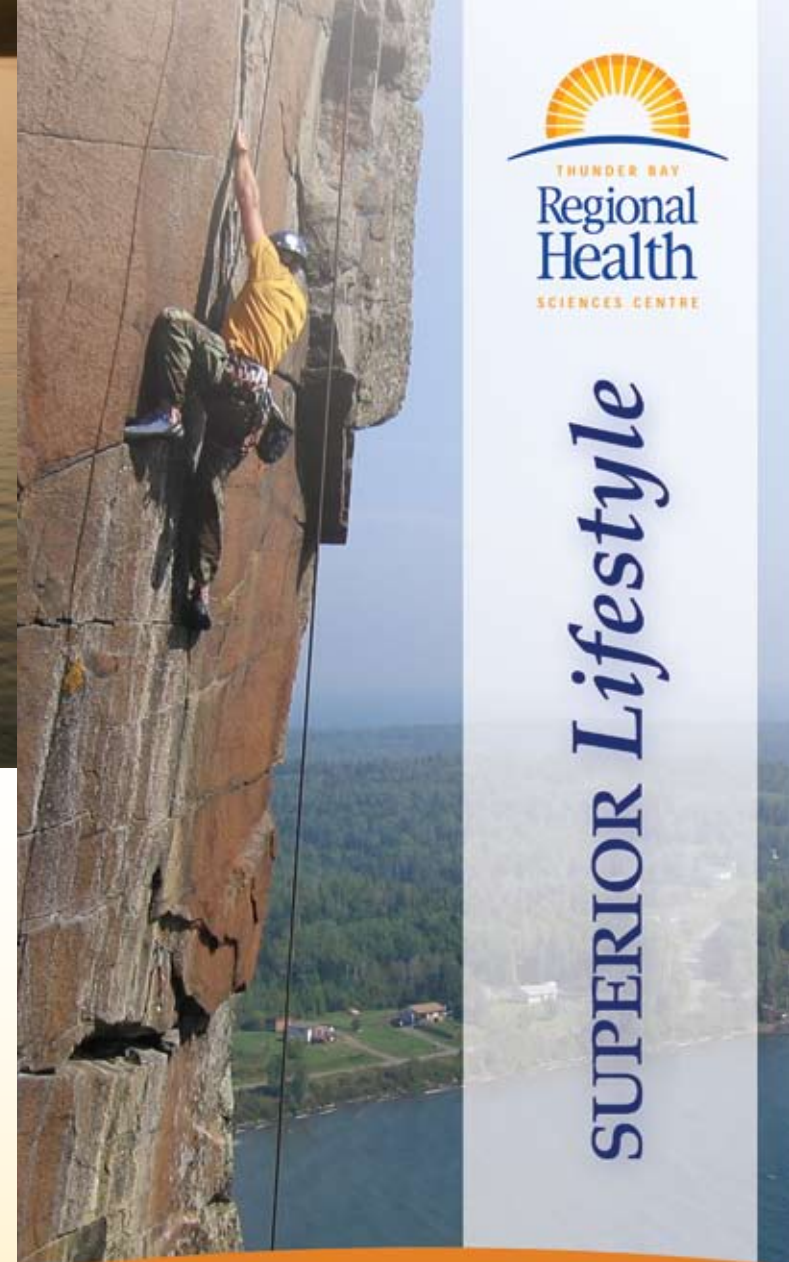

Locum opportunities are available.

Check us out on a  
**FULLY FUNDED** site visit.

*SUPERIOR Lifestyle*

**NEW Hospital  
NEW Medical School  
and NEW EM Residency Program**

*Ascend to New Heights in Your Career*

## You Belong Here

Our 52 bed Emergency Department is the second busiest in Ontario and sees over 90,000 visits annually. We are located in the newly built Thunder Bay Regional Health Sciences Centre. TBRHSC is a 375 bed acute care hospital that services a local population of 117,000 and a regional referral base of 270,000 people. We are one of eleven designated Trauma Centers in Ontario and have a dedicated Trauma Program. We are also the Regional EMS Base Hospital for pre-hospital care.

## Ascend to New Heights

The brand new Northern Ontario School of Medicine already has students in our department. The Family Medicine North residents have core rotations in our ED and our CCFP-EM Residency Program started in the fall of 2007. Our research division is swiftly expanding and clinical trial involvement is increasing rapidly. Our CME Program is very active with local and telecast conferences, Journal Club, M&M Rounds and Multidisciplinary Education Rounds.

## Be Part of A Team

Our current Emergency Department is comprised of a mixture of full and part-time physicians with both FRCP and CCFP (EM) certification. Currently there are 25 emergency physicians in our incorporated group. Our AFA funding envelope allows for maximum work flexibility and an unrivaled lifestyle.
